

Drugs and Alcohol Policy

The University of Winchester Drugs and Alcohol Policy (students) will be supported and upheld by the union and will be adopted as our formal policy with the following addendum:

The Student Union will endeavour to educate and inform students of the risks and dangers of drugs and alcohol abuse or misuse.

The union has a strict **no** tolerance policy of the use, possession, or traffic of illegal drugs on the premises, as well as during union sponsored or affiliated group activity. Winchester Student Union withholds the right to supersede the guidance regarding response to substance abuse or traffic found within the Universities policy, and may contact the police at any level of infraction.

If any student contacts the union officers or staff about a suspicion of drug or alcohol misuse among the student body or on the SU premises, the union will follow the University policy and contact them immediately, looking into the support available from student services for the student.
