

Vote Kyla #1 Ethical and Environmental Officer

I have been a member of the current Union council for the past 2 years as Black student officer, and in my role I have worked closely with both members of the exec and union council to help implement the university's equal ops policy by sitting on boards such as the race equality action forum and the equality and diversity forum.

As ethics and environmental officer I will aim to ensure that the views and opinions of students who are discriminated against are reflected in the unions work by supporting liberation campaigns (Black, LGBT, Women's, Disabled students campaigns)

I have been actively involved in the fair-trade fortnight events, running many of the events myself, fair-trade is an issue which I feel strongly about, and as Ethics and Environmental officer I will ensure the uni upholds its fair-trade status, and does more to promote awareness of fair-trade within the university and local community. I will also aim to help the university keep its bronze sound impact status, and work towards a silver award. If you elect me as ethics and environmental officer I will aim to improve recycling on campus by providing more recycling facilities around campus as well as arranging a recycling centre at west downs in a bid to get more students recycling.

For a union that takes ethics and the environment seriously- vote Kyla!!
